1. Introduction

The USB Link Adapter is specially designed to work with Windows Easy Transfer, a new feature on the most recent Windows® 7 operation system. It is a USB 2.0 host-to-host link adapter allowing you migration files and settings from an existing computer running Windows Vista® or Windows® 7 to another new computer running Windows® 7. No additional driver and software are required on Windows® 7. With the adapter in conjunction with Windows Easy Transfer, users can transfer user accounts, files and program settings directly from one PC to another without having to transfer the files to intermediary data storage. For those who need bulk data backup/restore, synchronization or file sharing, it's an ideal transferring solution.

Features

- Works with Windows Easy Transfer.
- No additional driver and software required on Windows® 7*.
- Easy file sharing and data transfer between two PCs via USB port.
- Full compliance with USB Specification Version 2.0 and 1.1.
- Supports data transfer rate of up to 480 Mbps.
- Supports suspend and resume power management features.
- Supports two-way data transfer.
- Bus powered from either USB port.
- Supports Windows® 7, Windows Vista® SP1 and Windows® XP SP2.

* Install CD required when one of PCs is not under Windows® 7 Operation System.

*Install CD required when using PCLinq3 utility.

Package Content

- USB Link Adapter
- CD (User's Manual and Driver)
- Quick Installation Guide

System Requirements

- Windows® XP SP2, Windows Vista® SP1 and Windows® 7

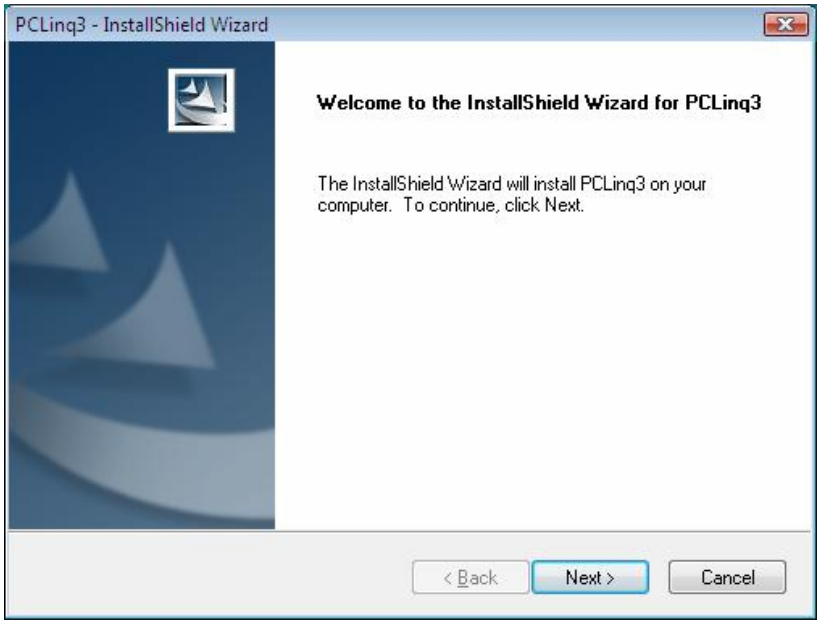
2. Installation

On Windows Vista®

You must install the following driver first before you plug the adapter. Please follow the steps below to proceed.

Installing PCLinq3 Driver

1. Insert the provided CD into your CD-ROM drive. An auto-run screen will automatically pop up and guide you to install **PCLinq3**. Click **Next** to proceed.



PCLinq3 - InstallShield Wizard
Welcome to the InstallShield Wizard for PCLinq3
The InstallShield Wizard will install PCLinq3 on your computer. To continue, click Next.

3. Using Windows Easy Transfer

A. Launch Windows Easy Transfer on Both Computers

Windows Easy Transfer is a Windows-based utility that allows two computers to transfer files and settings from a computer running Windows® XP, Windows Vista® or Windows® 7 to another computer running Windows® 7.

To use Windows Easy Transfer, make sure you plug the adapter into the USB ports on both computers and then start Windows Easy Transfer on ***both*** computers.

To start the utility:

- On Windows® 7: Select **Start** > **All Programs** > **Accessories** > **System Tools** > **Windows Easy Transfer 7**
- On Windows Vista®: Select **Start** > **Programs** > **Windows Easy Transfer 7**.
- On Windows® XP: Select **Start** > **Programs** > **Windows Easy transfer For Windows 7**.

After launching Windows Easy Transfer, just follow the on-screen instructions. Pay attention to the following notices when you are using the utility:

- You must launch Windows Easy Transfer on both computers on which you want to transfer files/settings so that they can detect each other.
- When prompted to choose a transferring media, select USB cable.
- You can only transfer files/settings between operation systems using the same language. For example, you cannot transfer settings from a traditional Chinese system to an English system.

Transfer Example

The following example demonstrates how to transfer files from Windows Vista® to Windows® 7. (Some of the screenshots may not appear; actual screen that appear on your computer depends on your selection and usage.)

Windows Vista®

1. Click **Next**.

Windows Easy Transfer
Welcome to Windows Easy Transfer
Windows Easy Transfer lets you copy files and settings from one computer to another. No information is deleted from your old computer.
You can transfer:
User accounts
Documents
Music
Pictures
E-mail
Internet favorites
Videos
And more
When the transfer is done, you'll see a list of what was transferred, programs you might want to install on your new computer, and links to other programs that you might want to download.
Tip: If you're upgrading this computer to Windows 7, think of "old computer" as referring to your "old version of Windows" and "new computer" as referring to your "new version of Windows."
